An act relating to long-term health care facilities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

LEGISLATIVE COUNSEL'S DIGEST

AB 392, as amended, Feuer. Long-term health care facilities.

Existing law provides for the licensure of long-term health care facilities by the State Department of Public Health. Under existing law, the Long-Term Care, Health, Safety, and Security Act of 1973, the department may assess penalties for violation of prescribed state and federal requirements. Moneys collected as a result of the penalties imposed pursuant to these provisions are required to be deposited into either the State Health Facilities Citation Penalties Account or the Federal Health Facilities Citation Penalties Account, and used, upon appropriation by the Legislature, for the protection of health or property

of residents of long-term health care facilities, including reimbursing residents for personal funds lost and costs associated with informational meetings.

Existing law establishes the Office of the State Long-Term Care Ombudsman in the California Department of Aging. Under existing law, the office is responsible for, among other things, investigating and resolving complaints and concerns communicated by or on behalf of patients, residents, or clients of long-term care facilities, as defined. Existing law authorizes the California Department of Aging to allocate all federal and state funds for local ombudsman programs according to a specified distribution schedule.

This bill would appropriate \$1.6 million from the Federal Health Facilities Citation Penalties Account to the California Department of Aging for local ombudsman programs, to be used before the end of the 2009–10 fiscal year.

This bill would declare that it is to take effect immediately as an urgency statute.
